May 20, 2016

Recent testing of Vienna's water wells has shown levels of C-8 to be at or near .1 part per billion. Before May 19th, 2016, the EPA's established health advisory threshold was .4 parts per billion. With the advisory level lowered by the EPA to .07, the City of Vienna is taking precaution for our residents to follow the Do-Not Drink-Water advisory.

Vienna residents may bring clean containers to any of three locations to receive an alternative source of water for drinking and for food preparation. Tanker trucks are located at the Grand Central Mall, the former Manville site on River Road between 32nd and 28th Streets, and at the Vienna Utility Board garage behind 210-60th Street. Hours are 8:00AM until 8:00PM. If you are elderly or in need of special arrangements to obtain water please phone the City of Vienna @ 304-295-4541 or 304-295-4543.

Additional information regarding the advisory can be obtained at the following toll-free number: 888-550-6797

Vienna is actively involved in ensuring safe drinking water and committed to the safety and health of our residents and businesses.
